

**Results of the committee meeting for a "second-year research proposal"
also known as "Biochemistry qualifying exam part 1"**

The purpose of this form is to document the occurrence and results of a committee meeting related to a second-year research proposal for a graduate student in Biochemistry. The committee should consist of the student's research adviser, plus two other faculty of the student's choice. This meeting should normally occur by the end of the fall semester of the student's second year in the Biochemistry graduate program.

The student should bring this form to the committee meeting, and return the completed form to the graduate office promptly after the meeting.

Student name: _____

Student signature: _____

Date of meeting: _____

Faculty adviser signature: _____

Committee members in attendance:

Result of meeting: Indicate whether the proposal was satisfactory, and **whether the student is to proceed onward to the qualifying exam.**
