

Student Name:

Date:

Examination Results

_____ Unconditional Pass

Meets at least the minimum qualifications for a satisfactory performance.

_____ Conditional Pass

Does not meet the minimum qualifications for a satisfactory performance, but the deficiency could be rectified with additional work related to the research proposal. The Examination Committee shall recommend a mechanism for evaluating the subsequent correction of the deficiency.

_____ No Pass

Does not meet the minimum qualifications for a satisfactory performance and several deficiencies are evident from the student's performance. A recommendation is made by the Examination Committee that the student try to correct deficiencies and reinitiate the Qualifying Examination (Part II) at a later date. This would necessitate that the student develop a different proposal. Furthermore, the recommendation could indicate that the student complete a Master's degree before reentering the Ph.D. Program. (Under this condition, a new Examination Committee will be formed that is constituted of at least two members from the original committee.)

_____ Fail

Does not meet the minimum qualification for a satisfactory performance and gross deficiencies are evident from the examination.
